Re: Removal of Street Light at Summit Street

Dear Mr. Cedarholm,

We the residents of the Summit Street and abutters of the street light currently located on the east side of Summit Street, northerly of School Street and in the vicinity of the northwest corner of the residential building known as 78 School Street, request that said street light be permanently removed at such time as Unitil relocates associated aerial infrastructure onto its recently installed pole. At least one motion sensitive night sky compliant exterior light fixture will be installed and maintained by the owner(s) of 78 School Street on Unit 1 of the building facing Summit Street, and in the same general vicinity as said street light.
