To Whom It May Concern:

Thank you for considering this application for constructing an outdoor covered pavilion at Shaker Road School. The request is a direct response to our Covid-19 preparations, creating more outdoor space for our students as we make provisions to open our school as safely as possible this fall.

The Governor's task force, the CDC guidelines, and the DHHS recommendations encourage as many outdoor activities as possible including lunchtime, art, music and recreational activities. This new pavilion is essential in that pursuit and will help us facilitate maximum outdoor events.

The 1,152 square foot size designed is ideal for this purpose, however if absolutely necessary we are willing to reduce the building size to a square footage to expediate the process. It is our goal to have this structure completed before the start of school in September. Thank you for your consideration.

Sincerely,

Douglas Hicks
Head of School
