Mr. Thomas Aspell
City Managers Office
41 Green Street
Concord New Hampshire 03301

Dear Mr. Aspell:

We had the pleasure of working with Mr. Baia and Donna Muir. They have done a fine job for our City in their performance under the Covid-19 epidemic.

Donna definitely knows her job well and worked well with us to resolve a huge problem. We have never had a situation that required the assistance that Donna provided us.

Sincerely,

Hello,

I am writing this note to express my appreciation for the great hospitality and professionalism of Dave Rolla at Concord Aircraft Services as he hosted an aerobatic practice at the Concord Airport today. Myself and the other visiting aerobatic competitors made good use of Concord's FAA approved aerobatic practice area to start polishing our skills for the shortened, but coming, aerobatic competition season. With some challenging wind and cloud conditions everyone flew safely and thoroughly enjoyed flying at Concord. We hope that the airport benefited from a bump in the traffic count and some fuel sales.

We look forward to our next aerobatic visit.

Regards,

Wes Liu

Big thanks to Bog Road crew

A huge thank you to those involved with doing the work on Bog Road. Great job! A special shout out to Fred for being so helpful throughout the project, especially when crews were in front of the house.

COVID-19 and climate change

Yes, it is true that COVID-19 has 1) disrupted our social patterns, 2) caused an economic depression, and 3) sick

care about each other.

Volunteers can't replace staff

I'm a Hopkinton resident and support staff member at HMS. I'm writing to correct a recent idea that keeps cropping up: community member have insisted that volunteers will "mobilize" to fill the gaps left by staff cuts. Last week the school board came to the heartbreaking decision to issue pink slips to myself and 5 support staff. The reality is this: My job cannot and should not be replaced by a volunteer, no matter how well meaning.

I cannot emphasize enough how much I love working with students with special needs. It is fascinating, fun, and often exhausting. But my job goes beyond interactions with kids, including developing materials and co
