The Member's equity or deficit position while a participant in any Project Contract will continue to be reflected in the records and reports of the Corporation. The Corporation may withhold funds otherwise owing to the Member or may require the Member to deposit sufficient funds with the Corporation, as reasonably determined by the Board, to cover the Member's liability for the costs described herein. Any amount of the Member's funds held on deposit with the Corporation above that required to pay any liability or obligation shall be returned to the Member.

ARTICLE V COST SHARING PRINCIPLES

SECTION 1. Fiscal Year. The fiscal year shall be the calendar year, subject to the Board's discretion to amend the Fiscal Year. Before changing the Fiscal Year, the Board shall confer with the Treasurer and may confer with the auditor.

SECTION 2. Budget. The budget will be established pursuant to the terms reflected in the By-Laws.

SECTION 3. Cost Sharing Agreements. An agreement shall be entered into between the Corporation and each respective Member, uniform in all material respects, except with regard to the scope of Member services and Project Contracts that each Member selects to participate in and pay for, to ensure that the costs, expenses, debts, and liabilities ("costs") directly or indirectly incurred by the Corporation on such Member's behalf are recovered through said Member's CPA revenues, or from revenues from grants or other third-party sources. Such costs shall be classified as:

- (a) **CPA Member Services Costs:** costs incurred to provide the Complete Service Bundle, or such services that CPCNH offers, shall be recovered directly from Member(s) for the period they contract to receive such service(s). The Complete Service Bundle will include those services CPAs will require to undertake and provide Electric Aggregation Plans and Programs, such as: power supply procurement and management, data and billing, and customer service;
- (b) **General and Administrative Costs:** costs described in Article V, Section 4 are incurred for the common objectives of all Members of the Corporation, and are not incurred specifically in

connection with a particular Project, Project Agreement, or Member Service and shall be allocated to, and recovered from, each Member on a *pro rata* basis in accordance with the following formula: Member CPA's Annual Retail Electricity Load divided by all Member CPAs' Annual Retail Electricity Load; and

- (c) **Direct Project Costs:** costs incurred for a particular Project for designated Member(s) or costs incurred pursuant to a Project Contract shall be recovered directly from the Member(s) that participate in a particular Project or pursuant to the Project Contract that governs Member cost responsibility for the Project.

SECTION 4. General and Administrative Costs. General and Administrative Costs include those that have been incurred for the general operation and administration of the Corporation, and other expenses of a general character, including but not limited to costs relating to: administrative offices that serve the Corporation; Corporation-wide financial management, business services, budget and planning, and personnel management; operations of the Corporation's central management information systems; general management of the Corporation, such as strategic direction and member affairs, Board functions, accounting, procurement, and legal services; operation and maintenance expense; depreciation and use allowances; and interest costs.

General and Administrative Costs do not include costs that relate solely to, or are incurred by, the Corporation for CPA Member Services or as a result of any specific Project or Project Contract. The intent of the Members is to ensure that all costs incurred by the Corporation that are directly related to CPA Member Services will only be paid by the Members receiving such services or for any specific Project will be paid only by the Project Participants of that specific Project. As such, when an activity or cost generally included within the General and Administrative Cost category benefits CPA Member Services, a specific Project or Project Contract, or is performed or budgeted for a specific Project or Project Contract, an appropriate adjustment shall be made to assure that the proper portion of the cost of such activity is categorized and allocated as CPA Member Services costs to a Member receiving such service, or as a Direct Project Cost to the Project Participants, subject to cost allocation under the applicable Project Contract. The Members intend that all costs of the Corporation that are not directly assigned for recovery to CPA Member Services, a specific Project or Project Contract will be recovered as General and Administrative Costs.

SECTION 5. Member Advances, Contributions and Repayment. Upon the request or approval of the Board, any Member may make payments, advances, or contributions to the Corporation for any and all purposes set forth herein, and may contribute personnel, equipment or property, in lieu of other contributions or advances, to assist in the accomplishment of one or more of such purposes. All such payments, advances or contributions, whether in cash or in kind, shall be made to, and may be disbursed or used by, the Corporation. Except as otherwise specified in contracts with Members by the Board, the approved advances will be treated as indebtedness of the Corporation and shall be payable and repaid as such.

SECTION 6. Refunds. No Member that withdraws or is terminated shall be entitled to a refund of any payments made in connection with General and Administrative Costs.

SECTION 7. Funding of Initial Costs. Any Members that have funded activities necessary to implement the Corporation may request that the Board consider reimbursing said Members for said costs over a reasonable time period and shall provide such documentation of costs paid as the Board may request.

**ARTICLE VI

**ARTICLE VII
BOARD OF DIRECTORS**

SECTION 1. Powers and Duties. The business and affairs under the Agreement shall be managed by a Board of Directors of the Corporation, which shall have and may exercise all the powers of the Corporation, except as otherwise provided by law, by the Articles of Agreement, by the Corporation By-Laws, or by this Agreement. Any committee member may participate in a meeting of the committee by means of a conference telephone, video or similar communications equipment allowing all persons participating in the meeting, including the public, to hear each other at the same time, to the extent allowed by NH RSA 91-A, and participation by such means shall constitute presence in person at a meeting. The Risk Management Committee shall commission an independent agent to conduct and deliver to the Board and to the Members at the Annual Meeting an evaluation of the operational performance of the Corporation relative to the Enterprise Risk Management Policy and as otherwise requested by the Board. The Corporation shall budget an amount necessary for the evaluation as determined by the Risk Management Committee, which shall cause to be hired a firm or individual that has no other direct or indirect business relationship with the Corporation. The evaluation shall be conducted at least once every two years, starting within three years of the initial provision of electricity supply to a Member and no individual or firm may be hired to conduct more than two consecutive evaluations. Other committees may be established and abolished as necessary by the Board and given such authority as the Board determines appropriate, subject to the provisions of this article, and except that the authority of the Board itself shall not be delegated to any committee other than the Executive Committee. In the case of such committees established by the Board, it shall not be necessary for a committee member to also be a Member or a Director.

SECTION 10. Project Committees. The power to oversee implementation of Projects is delegated to Project Committees as set forth in this Agreement.

ARTICLE X PROJECTS

SECTION 1. Projects. The Board may establish Projects and Study Projects (collectively, for

purposes of this Article X only both are referred to as “Projects”) within the purpose and power of the Corporation and to adopt general policy guidelines for their implementation. “Project Contracts” means contracts between and among the Corporation and its Members for the Projects. Nothing contained in a Project Contract shall obligate non-participating Members in any respect with the Project.

SECTION 2. Right to Participate in Projects. The Board shall provide at least thirty (30) days prior written notice to all Members, unless such notice is otherwise waived, before any Project may be considered for adoption by a vote of the Board. Once a Project is approved by the Board, all Members shall have the right, but not the obligation, to participate in a pro rata share in the Project in relative proportion to the electric load of each Member. If a Project is not fully subscribed, the unsubscribed portion may be divided among the participating Members in the Project that seek a greater participation share in the same proportion as the original allocation until a project is fully subscribed. Each Member’s participation share allocation for the Project shall be based on the financial commitments made by the participating Members or as otherwise may be agreed by the participating Members in a particular Project. Once the Project is fully subscribed or the time to participate has closed, (i) the Treasurer will calculate the number of Project Votes each Member has in the Project, and (ii) the Chief Executive Officer, at the direction of the participating Project Members, will lead the negotiation of the agreements with the Project’s vendors, developers and/or consultants and assist with coordinating the Project Contracts amongst the participating Members and the Corporation. All expenses, rights, and obligations to any specific Project as among the participating Project Members will be as provided through Project Contract that will be separate and distinct from this Agreement. A Project that is fully subscribed or for which the initial time to participate has closed may remain open to new Members to join subject to, and under the terms of, the Project Contract.

SECTION 3. General Project Voting Guidelines. The following guidelines apply to all Projects established by the Corporation:

- (a) The Members that participate in a Project will all collectively agree, in Project Contract(s) separate from this Agreement, to what extent they will assume any obligations, debts and liability incurred in connection with the formation and/or implementation of such Projects. Nothing in this Agreement requires joint and several liability or imposes any liability on any Member with respect to any Project or Project Contract. The impact of a defaulting Member to any Project Contract shall be solely limited by, and governed according to, the terms for default covered in the Project Contract for the applicable Project.
- (b) Once a Project is fully subscribed or the time to participate has closed, as set forth in Section 2 herein above, all Project Matters regarding the Project shall be decided by 80% of the Project Votes cast thereon; provided that if one party controls more than 80% of the vote, then another party shall be required to vote in the affirmative for any action to be taken to prevent one party from controlling the outcome of the vote. Each Director shall be entitled to cast all or any portion of the number of such Director’s Project Votes.

SECTION 4. Transfer of Participating Member Project Contract Interests. Subject to the terms of any financing for a Project, a Project Contract may provide for a Member’s transfer of an interest in a Project to other Members participating in the Project Contract and, if such transfer is not fully subscribed by such participating Members, to other Members. Project Contracts shall not permit the transfer of a participating Member’s participation interest in a Project Contract to

any entity that does not qualify for membership in the Corporation or that would adversely affect the tax status of the Corporation.

SECTION 5. Project Committees. There will be a Project Committee for each Project consisting of one Director or alternate from each participating Member, which shall adopt procedures for the committee to follow as deemed appropriate for the Project.
