

CITY OF CONCORD

New Hampshire's Main Street™

REPORT TO MAYOR AND CITY COUNCIL

DATE: August 31, 2022
To: Mayor and City Council
From: Earle M. Chesley, P.E., General Services Director
Subject: 2023 Neighborhood Street Construction Project (CIP#78)

Recommendation

Accept this report appropriating \$741,002.11 from the New Hampshire Block Grant Apportionment A program for additional street paving.

Background

The City received \$741,002.11 on August 16, 2022 as an additional amount of money from the state of New Hampshire Block Grant Apportionment A program.

City Council launched the Neighborhood Street Paving Program in FY 2016, and has subsequently continued to invest in this effort for the sustained and orderly maintenance of local and neighborhood streets and sidewalks that support a vibrant community.

Since local streets have a life expectancy of 25 to 30 years, the program is predicated on a 30-year paving cycle. Streets are scheduled for work on a priority basis defined by objective measures such as pavement conditions, frequency of use, and available funding. More information regarding the execution of the program and the details of the paving cycle process can be found on the City's website at <http://www.concordnh.gov/1387/Neighborhood-Street-Paving>.

Due to their continued deterioration, the Department recommends the following work to be completed with these additional funds from the State of New Hampshire:

Street	Section	Description
Little Pond Road	Full length	Reclamation
Lake View Road	Full length	Reclamation
Carter Hill Road	West Parrish Road to Lake View Road	Reclamation
Oak Hill Road	Portions	Reclamation

Discussion

The City's paving contractor, Continental Paving, Inc., has agreed to hold their current unit pricing if this work was completed this calendar year. With the authorization of the Mayor and City Council, the work would be completed by mid-November.

Cc James Major, Highways and Utility Superintendent
