REPORT TO MAYOR AND THE CITY COUNCIL

FROM: Beth Fenstermacher, Assistant City Planner, on behalf of the Concord Conservation Commission

DATE: June 23, 2017

SUBJECT: Request for the Acceptance of Conservation Easement as part of conditionally approved Subdivision Plan application

Recommendation

Authorize the City Manager to accept the conservation easement, which is the result of the February 15, 2017 Planning Board conditional approval of the Major Subdivision Plan Application of Strategic Contracting Company, LLC at Map 122 Block 3 Lot 12 on Hoit Road with a Conservation Easement totaling 7.63 acres.

Background

The subdivision application listed above is located in the Open Space Residential (RO). Per Article 28-4-7 of the Zoning Ordinance (ZO), all major subdivisions within the RO District shall meet the requirements of the Cluster Subdivision. Per these ZO requirements, a minimum of 60% of the total parent tract shall be dedicated to open space and protected by legal instruments recorded in the Merrimack County Registry of Deeds.

The Major Subdivision application for the 6-lot cluster subdivision has received Conditional Final Approval by the Planning Board, and all precedent conditions have been met. The acceptance of the conservation easement has been recommended by the Conservation Commission. The total area proposed for acceptance in the form of a conservation easement is 7.63 acres. The configuration and terms of the easement have been reviewed by the Conservation Commission, and the Commission unanimously recommended the acceptance of the conservation easement.

Discussion

The application of Strategic Contracting Company, LLC is a cluster subdivision of a 13.26 acre vacant parcel of land on Hoit Road. The subdivision creates 6 single-family residential building lots, and one Open Space remainder lot with 1/6th undivided

ownership interest among the owners of the six residential lots. The cluster development standards require that 60% of the lot area (7.96 acres) be set aside as open space. The approved plan protects approximately 7.63 acres with a conservation easement on the Open Space lot, and protects an additional 1.67 acres of open space buffers protected through restrictive covenants spanning the 6 lots.
