

CASE STUDY

Energy Efficiency at Concord City-Wide Community Center

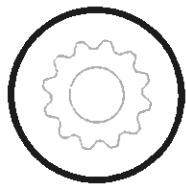

NEW LIFE FOR AN OLD SCHOOL

The Concord School District closed the old Dame School at 14 Canterbury Road in 2010 as part of a school consolidation. In order to reuse the building and expand services to area residents, the City renovated the old school into a new City-Wide Community Center in June of 2018.

IMPROVING CITY INFRASTRUCTURE

In order to save money and improve the efficiency of the building, the project utilized a cash rebate from NHSaves for energy efficiency measures including condensing boilers, a water heater, and energy recovery ventilators. The project was completed with assistance from Resilient Buildings Group (RBG), Liberty Utilities, RISE Engineering and Milestone Construction.

PROJECT HIGHLIGHTS

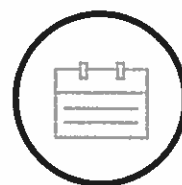

Added cost for energy
efficient equipment

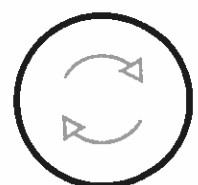

\$54,926

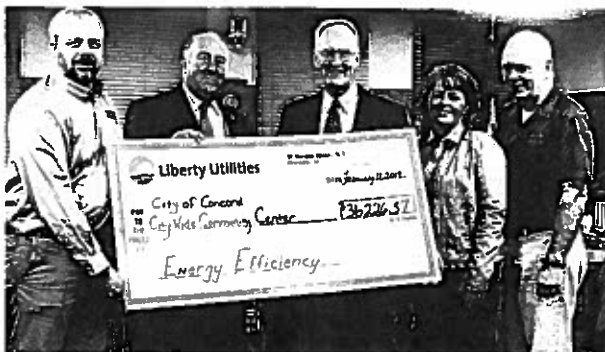

Incentive:
\$36,226

Annual Savings:
\$8,923

Overall Payback:
2.09 years

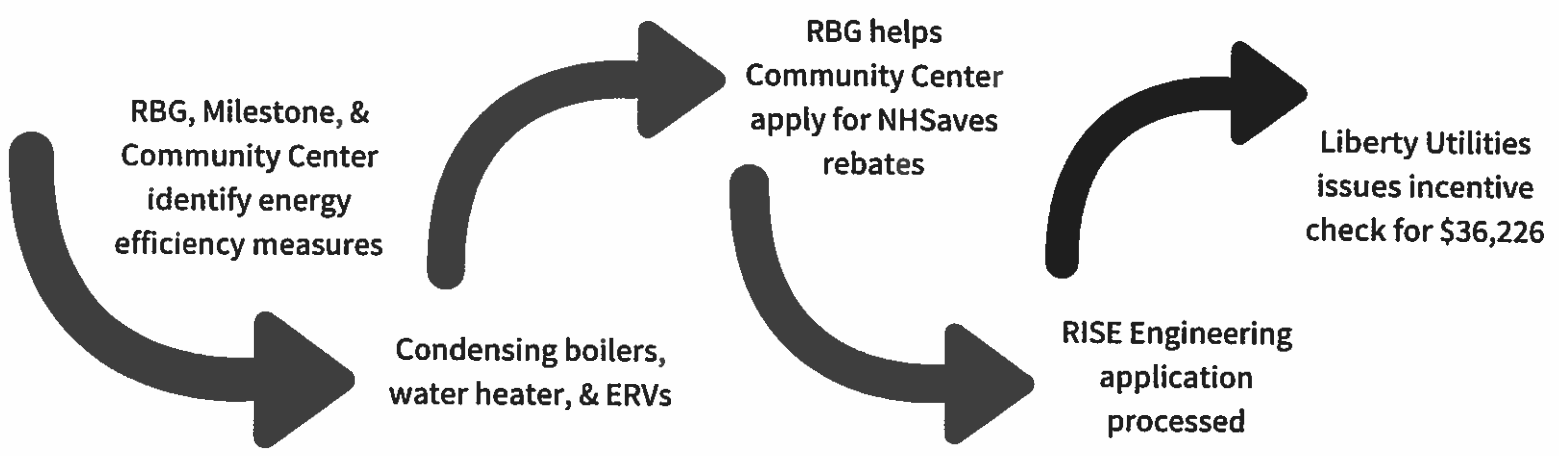

Brian Gehris of Milestone Engineering & Construction, Mayor of Concord Jim Bouley, Bob Reals of Liberty Utilities, Nancy Parker of Resilient Buildings Group, and David Gill of Concord Parks & Recreation at the project incentive presentation

ABOUT

Concord City-Wide Community Center & NHSaves

SIMPLE STEPS TO REALIZE SAVINGS

ABOUT NHSAVES

NHSaves is a collaboration of New Hampshire’s electric and natural gas utilities working together to provide NH customers with information, incentives, and support designed to save energy, reduce costs, and protect our environment statewide. Learn more at www.nhsaves.com.

These savings were made possible by NHSaves and Liberty Utilities energy efficiency program offerings. To learn more about energy efficiency programs & incentives, visit www.nhsaves.com/programs/#business or call 603-226-1009 ext. 202 or 603-595-2304.
