

# CITY OF CONCORD

## REPORT TO MAYOR AND THE CITY COUNCIL

**FROM:** David Gill, Parks and Recreation Director

**DATE:** January 28, 2018

**SUBJECT:** United States Tennis Association Grant Application

### **Recommendation:**

Through the City Manager, authorize the Parks and Recreation Department to apply for funding through the United States Tennis Association for up to \$28,000.

### **Background:**

In this year's Capital Improvement Plan there was a project approved for the full reconstruction of five of the tennis courts at Memorial Field (CIP 557, \$250,000). The project started last fall and will be completed by June 1 of this year.

The United States Tennis Association (USTA) offer facility assistance grants to help promote and develop the growth of tennis. With our current project, the City is eligible for assistance up to \$28,000. The grant from the USTA requires a 50/50 match and our current funded project exceeds the match required. If we are successful in receiving the grant we would use the monies to help with project cost and repaint the other five tennis courts at the complex. This will allow all ten tennis courts to be updated with the same base court color with new court lines which will provide an improved playing surface for our communities tennis players.
