**Subject:** Request for Additional Street Lighting on Prescott Street (Concord, NH)

**[CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe]**

Dear Sir/Madam,

I hope you are doing well.

I am writing as a concerned resident to kindly request the installation of additional street lights along Prescott Street in Concord, particularly the stretch between Prescott Apartments and Loudon Road (Main Street side).

Several of us often walk back to the apartments in the evening, typically around 8–9 pm, and have noticed that the street gets quite dark during those hours. Due to the limited lighting in this area, few residents have felt uncomfortable and concerned about personal safety while walking home.

Improved street lighting along this route would greatly enhance safety and visibility for pedestrians, especially during the evening and winter months.

We truly appreciate the City's continued effort in improving public safety and infrastructure and hope that this request can be considered at the earliest.

Thank you very much for your support.

Sincerely,

Harry

Prescott Apartments Resident.
