**Date:** Tuesday, March 4, 2025 6:30:28 PM

---

Good evening,

I'd like to forward my constituent's concern about ponding to the relevant departments. I've raised this issue with the City Engineer in the past and am concerned that this recurring issue may be hastening the deterioration of the roadway. In addition to Mr. Bezanson and Mr. Chelsey, could this also be sent to TPAC for consideration?

Respectfully,  
Stacey

Stacey Brown

Good morning Stacey. I have brought the issue of ponding adjacent this address due to past work (water main repair) and subsequent patch many times via Click Fix to no avail. After a time I receive an automated response asking if I want to close the issue. I have not heard from anyone subsequent your reply last year:

Hi Gerard, I'm your City Councilor! I've been talking to the City Engineer about ponding issues happening on Auburn Street during heavy rains. I'll let him know to include your address when he heads up there.

The situation has deteriorated and eventually someone will be injured or property (vehicle) possibly damaged. Is there a different approach to this ongoing problem that you can suggest? Thank you if you can provide any assistance.

Gerard Michael Fraher
