

Anthony Tenczar  
33 Rockingham St.  
Concord, NH 03301

Janice Bonenfant  
City Clerk  
City Hall  
41 Green St  
Concord, NH 03301

Dear Ms. Bonenfant:

Please accept this original petition (25 pages) to lower Rockingham Street's speed limit. Residents of Rockingham Street in Concord's South End circulated the petition. The wording of the petition is on every page and by my count has been signed by 260 people. It appears that 238 are from Concord and 47 are residents of Rockingham Street. The petition was carried around by individuals, placed at our local variety store, and was also available at a table set up on the Rockingham Street sidewalk.

My location breakdown of the signatures is below.

Sincerely,

Anthony Tenczar

260 - total signatures

47 - Rockingham St residents

238 - Concord

4 - not specific location

12 - Bow

3 - Penacook

1 - Loudon

1 - Raymond

# Petition for Lower Speed Limit on Rockingham St.

We the undersigned residents of Rockingham St. and surrounding neighborhoods respectfully ask the Concord City Council and associated traffic committees to reduce the speed limit on Rockingham Street to 25 MPH and post the street with noticeable and distinctive speed signage. Furthermore, we ask the city to work with the residents of the street to develop other traffic calming and pedestrian safety measures. Some reasons for this petition are:

- Speed surveys show that speeds of many vehicles are excessive and unsafe.
- Rockingham is a densely populated residential area with many driveways.
- Rockingham has obstructed views due to bends, rises and dips.
- Many children live on the street and in the area.
- Rockingham St. must be crossed to go to school and Rollins Park.
- Rockingham St. is a popular pedestrian and bicycle route.
- Rockingham St. is only ½ mile long with 5 crosswalks and 3 stop signs.

# Petition for Lower Speed Limit on Rockingham St.

We the undersigned residents of Rockingham St. and surrounding neighborhoods respectfully ask the Concord City Council and associated traffic committees to reduce the speed limit on Rockingham Street to 25 MPH and post the street with noticeable and distinctive speed signage. Furthermore, we ask the city to work with the residents of the street to develop other traffic calming and pedestrian safety measures. Some reasons for this petition are:

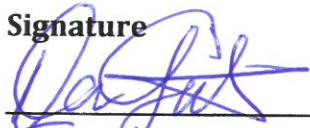

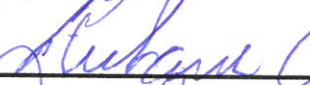

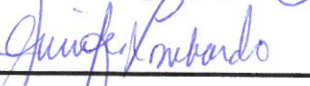

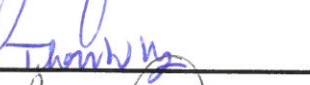

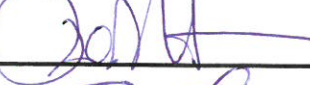

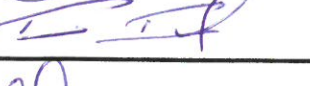

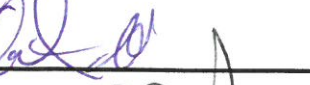

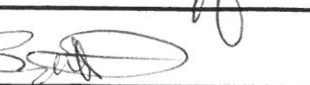

- Speed surveys show that speeds of many vehicles are excessive and unsafe.
- Rockingham is a densely populated residential area with many driveways.
- Rockingham has obstructed views due to bends, rises and dips.
- Many children live on the street and in the area.
- Rockingham St. must be crossed to go to school and Rollins Park.
- Rockingham St. is a popular pedestrian and bicycle route.
- Rockingham St. is only 1/2 mile long with 5 crosswalks and 3 stop signs.
