

# CITY OF CONCORD

*New Hampshire's Main Street™*

## Finance

Brian G. LeBrun  
Deputy City Manager  
Finance

**DATE:** November 15, 2019

**TO:** Honorable Mayor and Members of the City Council

**FROM:** Brian LeBrun, Deputy City Manager – Finance

**SUBJECT:** Beaver Meadow Agronomist Report

**Recommendation:**

Accept this report and refer it to the Golf Course Advisory Committee for review and recommendation.

**Discussion:**

At its September 2019 Regular meeting, the City Council approved \$7,100 to hire a USGA Agronomist to review Beaver Meadow Golf Course conditions and make recommendations for improvements to fairways, greens, tee boxes and the course in general, and tree removal, to foster improved course conditions.

**Conclusion:**

USGA Agronomist Paul M. Jacobs visited Beaver Meadow Golf Course on October 23 and 24 to review course conditions and tree removal. On November 4, 2019 the City received Mr. Jacobs' reports specifically recommending course improvements on a hole by hole and general course basis. He also provided a report for recommended tree removal to improve sunlight and air movement on fairways and tee boxes.

This report has very detailed recommendations that will likely take a number of years to implement as well as a number of items that should be accomplished as quickly as possible. Having this report referred to the Golf Course Advisory Committee will enable the City to have the most experienced golfing group make recommendations on how to proceed and that is in the best interest of Beaver Meadow Golf Course.
