Good Morning Council,

*My name is Eddie Gonzalez President of the Empire League. We are a developmental Baseball league designed to give kids out of college the preparation and guidance to pursue a professional baseball career. We are not a collegiate league, we are an independent league that provides opportunities for young men in the region to pursue a Baseball dream.*

*We have expanded to 6 Teams as a league and are currently in the process of finding a final location. We are interested in making Concord NH a town with an Empire League team. It seems to have the correct necessary attributes and Stadium to experiment and determine if this could be a great location for a New Hampshire team.*

*We are interested in a business leasing agreement. The season is only 60 days long over the summer months from June 15 to August 15th.*

*We only need the stadium for 24-26 days if Available. Only 4-5 days in a row on two weeks each month. A visiting team would come in spend 5 nights in town and play on 4-5 days there vs the New Hampshire team.*

*Our intentions are not to step on any programs toes, we don't want to conflict with other organizations, we simply placed a request of interest in bringing a team to Concord NH, if it's possible and field rental is available for the pricing we were given by Parks Department. I look forward to hearing from someone on this interest for a Baseball team.*

Thank You!

Sincerely,

Eddie Gonzalez | CEO of Empire League
