Experience

Strafford Regional Planning Commission

Regional Planner | May 2021 to present | Rochester, N.H.

- Organized and operated average annual daily traffic data collections as requested by NHDOT and local municipalities at over 110 locations.
- Contract town planner for the Town of Northwood, New Hampshire. Review and provide consultation on site plan and subdivision applications.
- Research, data preparation, writing, and presentation for statewide housing needs assessment that included "fair share" projections.
- Completed site visits for regional parks and recreation inventory. Assisted in social media campaign promoting summer use of facilities by families.

Chester County Department of Community Development

GIS Assistant | August 2021 to May 2022 | West Chester, Pennsylvania

- Creation, design, and implementation of materials for workforce development initiatives, subsidized housing assistance, and fair housing programs.
- Gathering, analysis, and preparation of US Census, Bureau of Labor Statistics, and historical Chester County data. Updated many county resources that only had data as recent as 2013.
- Finished products presented to Workforce Development Board and Chester County Planning Commission and included in applications for HUD funding opportunities.

West Chester University Department of Geography & Planning

Graduate Assistant | January to May 2022 | West Chester, Pennsylvania

- Research in creating a municipal-friendly experience and interface for ArcGIS Urban and other ESRI products.

YMCA of Greater Brandywine & West Chester University

Student Partner, GIS | May to August 2021 | West Chester, Pennsylvania

- Analyzed pre-pandemic membership trends in contrast with those of May 2021 in assistance with site research for relocation of a current facility.

Baltimore County Department of Planning

Census Outreach Specialist | January to April 2020 | Towson, Maryland

- Educated public on purpose and mission of the US Census. Implemented county marketing tools for the purpose of connecting with known "hard to count" populations.
- Point of contact for five colleges and universities in distributing Census materials.
- Organized communications with county executive staff, Complete Count Committee, planning department, state agencies, and Census Bureau employees.
