Concord, NH 03301Re: Roads Scholar Program

Dear Sirs and Madams:

It is our pleasure to inform you that Mike Nugent has achieved the status of **Roads Scholar Two**. The T² Center has created the Roads Scholar Program to recognize various achievement levels in our educational program for people who work in public works.

Roads Scholar Two is the **second achievement level** of the six levels in the Roads Scholar Program. It is distinguished from the other levels by requiring the completion of 50 contact hours, which must include: 20 hours in technical areas, 5 hours in supervision, 5 hours in environmental, and 10 hours in safety. The additional 10 hours required for this level are at the learner's discretion. The typical training session yields five hours of contact, therefore an individual must typically attend **ten one-day workshops** to reach the level Mike has completed.

On behalf of the Technology Transfer Center, I am pleased to notify you of the extra effort and commitment that Mike has demonstrated in order to achieve this status. He deserves to be congratulated for his persistence and drive to maintain a leading edge in the field of local road maintenance and construction.

Sincerely,

Marilee LaFond
UNH Technology Transfer Center Manager

Re: Roads Scholar Program

Dear Sirs and Madams:

It is our pleasure to inform you that Kevin Demers has achieved the status of **Master Roads Scholar II**. The T² Center has created the Roads Scholar Program to recognize various achievement levels in our educational program for people who work in public works.

Master Roads Scholar II is the **fifth achievement level** in the Roads Scholar Program. It is distinguished from the other levels by requiring the completion of 150 contact hours, including the requirements for Roads Scholar Two, which are: 25 hours in technical areas, 5 hours in supervision, 5 hours in environmental, and 5 hours in safety. The individual also must be a **Safety Champion**. The typical training session yields five hours of contact, therefore an individual must typically attend **30** one-day workshops to reach the level Kevin has completed.

Safety Champion is a side award given once a recipient achieves 20 Safety hours, regardless of what Level he has reached in the Program.

On behalf of the Technology Transfer Center, I am pleased to notify you of the extra effort and commitment that Kevin has demonstrated in order to achieve this status. He deserves to be congratulated for his persistence and drive to maintain a leading edge in the field of local road maintenance and construction.

Sincerely,

Marilee LaFond
