Subject: Item for the 08/13/18 Council Agenda

Hi Janice,

Would you please place on the agenda as follows.

Some constituents from ward 6 have enquired about making Thorndike Street one way from South Street to South State Street. They are concerned about poor visibility when trying to exit Thorndike onto South Street. They report accidents and close calls at the intersection. Another focus might be addressing the visibility issue. I would like the City Council to refer this to the appropriate City Departments to look into the feasibility of the above.
