Simulation Information	
Transmission Line Information	Proposed structure type (visible): N/A
	Height range of existing transmission structures (visible): 43' to 97'
	Height range of proposed transmission structures (visible): N/A
	Right of way width: 257.5'
Photograph Information	Date and time: 8/1/14 at 12:55pm
	Location: facing South/Southeast 43.255135° N, -71.521292° W
	Weather conditions: Overcast
	Distance to visible structures: 0.13 to 0.63 miles
	Focal length (50mm equivalent): 35mm
	Camera Make/Model: Nikon D7100
	Source: TJD&A

Site photos were taken from the observation deck.
