Janice--would you please have the City Council forward this to the Traffic Operations Committee. This concern has not been addressed.

Thanks

Jim

Cancel Traffic on Springfield Street 

Subject: Traffic on Springfield Street

This is a follow up to our recent phone conversation regarding traffic flow and excessive speeding on Springfield Street. Several residents on this street have reported this to the police and on occasion have given them license plate numbers without any success-the speeding still continues. With that being said since school is out for the summer the students probably are not the ones now speeding. However, there are still no shortage of speeders. It's not if but when someone is going to get hurt. I offered a few suggestions to try and stop this issue.

1. Put in a sidewalk
2. Make Springfield one way the same as Harvard, Yale and Cornell
3. Speed bumps which we are not in favor of but a suggestion

There are children who use this street to walk to Conant, Rundlett as well as the High School Not to mention senior citizens who walk these streets every day.

Also, I don't know if this is still in effect, it was our understanding that school buses were to use Norwich Street because that street has sidewalks. That apparently has not been in the information packet letting the drivers know this.
