Subject: Safety Issue - Broadway and S. Main Intersection
To: <jim4concord@gmail.com>

Dear Councilor Schlosser,

I hope this message finds you well. I am writing to bring to your attention an urgent safety concern regarding the intersection of Broadway and S. Main St., which has become increasingly hazardous for residents in the area.

Over the past six months, we have experienced two separate incidents where cars have crashed into our property — the first into our garage and most recently, just this week, into our home. Thankfully, no one was seriously injured, but these accidents have raised serious concerns for the safety of my family and our neighbors.

As you may have seen in today's *The Concord Monitor* <https://www.concordmonitor.com/Concord-NH-home-hit-twice-by-car-in-six-months-broadway-main-street-58294840>, we were interviewed about these incidents and the dangerous nature of the intersection. We believe the frequency of these accidents is not only alarming but poses an ongoing risk to everyone in the area.

Given the circumstances, we are hoping you can assist us in advocating for changes to improve safety at this intersection. Whether through enhanced traffic control measures, improved signage, or any other possible solutions, we are eager to work together to prevent further incidents from occurring.

Thank you for your time and consideration. We would greatly appreciate your support in addressing this issue and ensuring that our community remains safe. I look forward to hearing from you and discussing how we can move forward.

Sincerely,

Alissa Jelley
