**Additional Information**

Please include a short description of your relevant background knowledge of local river-related issues or general river management and protection:

My education is in chemical engineering (B.S. & M.S.) and I currently work as an environmental consultant (and professional engineer) assisting industrial clients with stormwater (NPDES), wastewater (IDPs), and air permitting-related issues. Although I do not directly work on river management issues, I indirectly support these issues through my work, which includes AoT, CGPs, water quality monitoring and reporting to regulatory agencies.

On a personal side, I grew up kayaking and swimming in the Merrimack and now enjoy those activities with my children, so I am committed to protecting the quality of our river.

Most Local Advisory Committees engage in a variety of activities. Reviewing those activities listed below, please check those that are of most interest to you:

- Grant Writing             Public Education     Committee Administration
- Event Organization     Public Relations     Management Plan Preparation/Implementation
- Other, please specify: \_\_\_\_\_

Most Local Advisory Committees meet monthly. In some cases, they may meet more frequently to complete specific tasks, while in other cases your attendance may not be required at all meetings. Please check one of the boxes below to indicate your availability to attend regularly scheduled meetings:

- I can attend monthly meetings on most weeknights.
- I can attend monthly meetings only if scheduled on a specific weeknight.
- I can only attend a limited number of monthly meetings.
- I cannot attend monthly meetings, but am willing to complete tasks on behalf of the Committee.
